

Wagonhound Land & Livestock

Directions from Ranch Entry to Ranch Headquarters

(Map No. 2)

1. LOOK FOR MILE MARKER 14 - you'll see a few houses on 40-acre parcels on your right. Shortly after this, you will see 1441 Esterbrook Road on a group of mailboxes. Turn right onto a gravel road after the mailboxes (going over a cattle guard) and you are now on the Main Ranch Entry Road.
2. RESET YOUR ODOMETER - it is 8.9 miles from Esterbrook Road to the Ranch Headquarters.
3. STAY ON THIS ROAD - there are no additional turns from this point forward, but there are lots of curves and several intersections. The Main Ranch Road is shown in red, and the intersecting roads are in black. If you are coming in at night, be sure to follow the main road carefully through the intersections. Construction traffic veering onto these intersecting side roads has made them look similar to the main road surface in places.
4. ALONG THE WAY - you'll be driving along the West Fork Pastures, then you'll see the West Fork Corrals. After a few more miles you'll pass the gravel quarry entry, and then you'll see a large irrigation pivot on your right. You'll pass another intersection, but continue on the same road following the irrigation pivot. The road then climbs and winds through some high sagebrush pastures overlooking the West Fork of LaBonte Creek.
5. EVENTUALLY - you will pass another intersection on your left and then the road starts to curve to the north. At the next intersection on your left you will notice a rock outcropping with a small sign (the arrow points to Ranch Headquarters). Continue past one more intersection on your right and then you'll go over Wagonhound Creek. Follow the road along the meadows and straight and you'll be on the hill above headquarters.
6. AT HEADQUARTERS - the Ranch office is located on your left next to the three flagpoles. You made it!!
